## RED PERIL IMMINENT

### Report Cites Danger From Aliens

Washington, — Senator Homer Ferguson (R., Mich.) today predicted that if subversive elements in the United States can be discovered and controlled, there need be no fear of a shooting war in America.

Senator Ferguson is the ranking Republican on the Senate Internal Security Subcommittee which has he pointed out, documented sixteen important phases of Communist penetration in the United States, since the Subcommittee was created by Congress two years ago.

He explained that he has devoted a great deal of time to the Subcommittee's work because he feels it is vital to the security of the nation.

"From everything I can learn, I believe," he said, "that the Red Army will never go to war with any nation until the Kremlin is satisfied that nation is sufficiently penetrated with Communists and other subversives who will function as an effective fifth column in the target country to weaken its internal strength and assure the success of the Red military forces."

It is for this reason, Senator Ferguson said, that he has given a great deal of time to the Subcommittee's work and that he plans to continue to give it close attention.

"Though it is obvious that further inquiry will be necessary as to some of the subjects we have opened, I believe the results of our work during the past two years has completely justified the Subcommittee's creation," he said in a statement. "I am certain that no more thorough or careful study has been made by any Senate committee of recent years."

Senator Ferguson referred to "the thousands" of commendatory letters and comments received by the Subcommittee and its members and the almost unheard-of demands for copies of the hearings and reports as indicated strong public support. To meet requests for hearings on the Institute of Pacific Relations alone it was necessary to ask Congress for 7,500 additional prints, he pointed out.

Ferguson, a member of the Senate Judiciary Committee, has been an exceedingly active member of the Subcommittee headed by Senator Pat McCarran, Judiciary Committee Chairman.

"Though newspaper and magazine publicity has seemed to center at times on individuals, this singling out of persons has not been the Subcommittee's objective," Ferguson said. "Rather, the hearings have been designed to uncover a situation that threatens the subversion of our government, the disruption of industry, the alignment of class against class, the perversion of our educational process, the weakening of our national defense and the obstruction of our courts and civil processes."

### Baruch Appoints Eisenhower Cabinet

The newspapers of December 30th carried front page articles to the effect that Clarence D. Dillon will be appointed ambassador to France. This makes interesting reading but it becomes even more interesting when the reader knows certain features about this appointment. Features that newspapers which carry advertising do not dare publish.

It is generally known that Bernard Baruch, the unofficial president since Woodrow Wilson's time, has controlled the banking firm of Dillon, Read and Co., 46 William Street, New York City, for many years. The Mr. Dillon in question is Chairman of the Board. He was also chairman of the Eisenhower finance committee for New Jersey during the election campaign and is a graduate of the Communist Incubator—Harvard. This Mr. Dillon who is to be our ambassador to France is a student of Felix Frankfurter, who taught at Harvard. It is reported that Frankfurter placed more Communists in the New Deal than any other five Jews. Frankfurter today is the most powerful man behind Eisenhower with the exception of Bernard Baruch.

When Dillon's name was handed to Eisenhower he had no choice but to appoint him as ambassador. What is wrong with this?

### BARUCH, CHURCHILL AND EISENHOWER

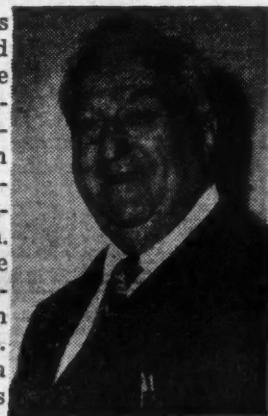

In a later issue we will comment on the significance of the meeting of these three.

Our Lord does not allow us to see fully into the future, but some of us have different qualifications than others and use our time and energy to become more informed on the conflict here on earth between the agents of Christ and the Devil. Not all people realize the extent of the Devil's power. Many here on earth have allowed the Devil to use them in his plan to extend his work. After 20 years intensive study of the Marxist plan, the writer fully realizes that the confusion and fear in the world today is due to the fact that the crisis is approaching—the day of decision between the forces of Christ and the Anti-Christ. Anti-Christ are now in triumph. They are to the average observer the forces of the to the forefront and more vocal.

### McCarran Act Bars Spies

About three years have been consumed by a special Senate Sub-committee conducting an exhaustive investigation and study of our immigration and naturalization system. After these three years of study, Senator Pat McCarran and Cong. Francis E. Walter introduced a bill which, as far as is humanly possible,

handles all peoples Sen. Pat McCarran with justice and fairness in keeping with the safety of our country. The intent was to admit worthy people, but make entry difficult for those who are unwelcome and those who, we have learned from bitter experience, soon after their arrival, join forces with subversive groups agitating for the overthrow of our government and the setting up of a world government. After much deliberation and amending of the bill, it was passed by the Senate and the House and became a law on December 24th.

The representatives of the people, who were duly elected and sent to Washington to act for them, passed the bill. But the Jews refuse to accept it. They had their stooge "Peanut" Truman appoint a "Presidential Commission" to hold hearings and report to the President if this was a good law or not. Who was appointed on this commission to propagandize against this bill to defeat our elected representatives? None other than Philip B. Perlman, Chairman, a Jew of Baltimore who was former U. S. Solicitor General where he ran the Department of Justice with thirty thousand employees and Howard McGrath as a front. It was Perlman who advised Truman to take over the steel plants stating that Truman had the power to do so, regardless of Congress or the Supreme Court. Secretary of the Commission is Harry N. Rosenfield, Jew, member of the National Lawyers Guild, a Communist front. This law-wrecking committee held thirty hearings in 11 cities. The reader can well imagine who were called in to these hearings. Perlman now releases a 316 page report as part of the Marxist plan to repeal this law and allow the flood of undesirable trouble makers streaming in here since F. D. R., the traitor, opened the gates, to continue.

Does the quality of its citizens determine the future of our country? It is this group of greedy anti-Christians coming here for the last twenty years that is changing our wonderful country into a land of confusion and fear. These Marxists are

## RED PERIL IMMINENT

We have attempted to show how a 'cold war' operates—how an enemy government, without the use of armed forces, cause our citizens trouble and expense, alienate our friends, weaken our efforts for peace and our plans for aiding distressed peoples of other nations."

Senator Ferguson said that, now the Communist organization in the United States has gone underground, due to the restrictions established by Congress in the McCarran Act, there is no question but the "hard core" of Communist leadership is still active.

"Leaders may be jailed for a time and new leaders substituted; key figures may be forced out of government or labor or education but Communism will find others to replace them. A constant vigil is necessary and public exposure is the only successful means for alerting loyal citizens to their danger."

## McCARRAN ACT?

Senator Ferguson (R-Mich.) today called for an effective enforcement of the new immigration law which became effective on December 24.

"Hearings before Senate Immigration Subcommittee and the Internal Security Subcommittee during the past three years have revealed distressing policy on the part of the State Department to allow known subversives to come into the United States and to remain here well-nigh indefinitely," the Michigan Senator declared.

He is a member of the Senate Judiciary Committee of which the two subcommittees are subordinates and has been particularly active in the Internal Security Subcommittee.

"The hearings that brought out the Immigration Bill," Senator Ferguson said, "showed us that some very dangerous aliens were entering the United States. Investigations and hearings by the Internal Security Subcommittee revealed that many of these people, whose records were well known to federal authorities, were continuing their nefarious practices in this country."

"We learned that the State Department has been very lenient in advising the Justice Department as to such cases as came within its purview and that the top echelon of the Justice Department accepted the State Department's view despite strong represents to the contrary by Immigration Service officials."

The Subcommittee published two volumes of testimony by Immigration officials showing the magnitude of the illegal alien problem and including a statement by the chief of the Immigration Service that he was satisfied the control and direction of the Communist movement in this country is centered in persons connected with the diplomatic service or of international agency staffs of the Communist nations.

"In addition," Senator Ferguson pointed out, "The Subcommittee learned that the United Nations has been used as a harbor for various aliens who were in danger of expulsion as undesirable persons. These including one identified as an espionage agent and another, posing as a journalist, whose record covered a long period of subversive activities abroad."

The Subcommittee made and published a study of espionage activities by the personnel of embassies and consulates under Soviet domination and one dealing with the huge amounts of foreign propaganda distributed in the United States and the methods utilized for its transportation and circulation.

It also published an examination of several persons who, despite known records of Communist activities, were issued passports to European nations which enabled them to attend meetings in Moscow and other Iron Curtain countries.

"The 'freedom' of which we are so proud," Senator Ferguson said, "is not freedom to commit crimes."

"Our freedom is guaranteed not only by the Constitution but by laws such as the Immigration Act, the Anti-Subversive Act and other statutes which protect us against the peace-wrecking tactics of spies and saboteurs sent here by an enemy government and from alien criminals of other types who

see in our country a fruitful field for their illegal operations.

"We cannot sit idly by and let alien subversives and their dupes teach and propagandize for an ideology which demands the privileges of our form of government but denies that government the right to demand obedience to the laws which support those privileges."

## UNITED NATIONS

Senator Ferguson (R-Mich.) said today the Internal Security Subcommittee expects to have the full cooperation of the new administration in ousting Communistic influence from government.

"There is now no doubt," he said, "that the Communists have made every effort to get their proleyles in positions of influence and strategic importance as a means towards wrecking the nation they desire to destroy."

"Some have been rooted out. The United Nations provided a lucrative and strategic refuge for many of them. Our investigations and the publicity attendant thereon, have resulted in the discharge of some of these disloyal people. We hope it will result in a complete housecleaning and that measures may be devised to close that door to employment of Americans who have perverted their citizenship to the advantage of a foreign power."

Senator Ferguson said the public often has been told that there are now no disloyal persons in government.

"But we have been refused access," he said, "to the security records of persons employed in government whose activities and associations indicate at least an affinity for Communist causes. This policy, I believe, has been soundly repudiated by the voters."

Senator Ferguson recalled that the Subcommittee's hearings on the Institute of Pacific Relations revealed an organized effort to place persons in government whose views coincided frequently with the Communist line. He declared that some of these persons still are on the federal payroll.

"Of course," said the Michigan Senator, "we cannot dictate to the United Nations whom it may employ but we can insist, by legislation if necessary, that any Americans charged to the employment quota assigned to this country shall be completely loyal to the United States."

"We should insist, also, that the headquarters agreement, under which aliens connected with the United Nations would be restricted to the area granted to that organization, except upon express permission of United States authorities. The United Nations plant must not be a spy center."

Senator Ferguson also proposed that the armed forces purge their rolls of any members known or suspected of subversive tendencies.

"The committee has evidence," he said, "that the Communists made a well organized effort to get their members into the armed forces at the beginning of World War II and encouraged them to conduct themselves so as to gain promotions. We are of the opinion, and have some knowledge that there are many Communists among the commissioned grades in active service and in the reserves. "We are fighting a shooting war against Communists. There should be no enemy agent within our ranks."

## EDUCATION

If there is any value in the education of our youth, we must be sure that the ideas implanted in their minds are sound, Senator Homer Ferguson (R-Mich.) said today.

Commenting on the work of the Senate Internal Security Subcommittee, in which he has taken a prominent part, Senator Ferguson referred to the many statements in Communist publications emphasizing the value of the proselytizing of youth.

"The clearest of these," Senator Ferguson said, "is the declaration of Lenin, which is still a part of Communist doctrine, that 'the youth will decide the issue of the whole struggle, the student youth and still more, the working class youth.'"

"We can all subscribe to that statement, but we must be sure that, when youth makes its decision, it is based on clear understanding, and not upon

determined to flood the U. S. with these plotters and revolutionists until they break us down, abolish our government, and set up World Government.

Our staff reads the leading Jewish papers which are crying for repeal of the McCarran-Walter Act. These papers object to the feature of this bill which requires aliens who have entered illegally to register. No wonder! When Tom Clark was head of the Department of Justice, he admitted there was an average of 2,000 illegal entries a day for years. It is safe to say 95% of these are Jews. Apparently it is feared the six million Jews Hitler is supposed to have killed will be found in the U. S. Jewish papers have a campaign on asking all they can influence or coerce to sign petitions, send telegrams and letters to intimidate Congress to repeal this law. Here is a challenge to real, honest-to-goodness Americans. Will you allow this Talmudic group to move in here and intimidate and destroy our safety and freedom? Write your Senators and Congressmen. If you belong to an organization

worth the protection of America, ask them to pass resolutions backing up the McCarran-Walter Act. Write letters to your newspapers, stand your ground, don't back down or be intimidated. These Marxists have had their day; let's stop them. If they don't like America, let them get out. Better take time to write letters and speak up now or you will fight for your life in the streets later on. We will have all we can do to save our country against the millions of disloyal aliens already here without permitting more.

Congressman John Rankin on August 29, 1950 stated on the floor of Congress that at least 75% of the Communists in the U. S. were Jews. He should know—he was an important member of the Congressional Un-American Activities Committee for years.

Following are the well organized forces who are in the front bringing pressure on Congress: Anti-Defamation League of B'nai B'rith, American Jewish Congress, American Jewish Committee, Jewish Labor Committee, International Ladies' Garment Workers Union, Amalgamated Clothing Workers, Synagogue Council of America, National Council of Churches of Christ (Marxist controlled by Anti-Christians), also one or two Christian groups have been duped into helping the Marxists.

Let us Christian Americans who are informed stand shoulder to shoulder against the anti-Christ.

# Baruch Churchill

—(Continued from Page 1)—

When we tell you that there are definite and convincing reasons for believing that the Anti-Christ is alive and about thirty-three years of age (the same age as Christ was when crucified by the Pharisees—the Talmudic Jews of today), some will think this too fantastic to believe, but those who are informed on this subject will understand. With reference to Baruch, Churchill and Eisenhower, we have been convinced for some time, that two of these are important tools of the Anti-Christ. Apparently early future developments will decide as to the other. Watch for our article on these three in issue 177.

## RED HIGHLIGHTS

Attorney General James Patrick McGranery announced he would seek to strip citizenship from James J. Matles (Freedman), Communist official and U. E. director. Common Sense in its issue of July 21, 1946, was first to expose Matles as a leader of the Communist party. It wasn't popular in 1946 to expose Communism, and people thought Common Sense was radical. Now that it is popular to fight Communism, and Matles has done his dirty work, he is being exposed by popular critics of Communism . . . Dr. Schacht, world famous financial genius, was called in as advisor on the economic problems of Persia. Norbert Muhlen's book "Hitler's Magician" says, "the Hitler press" in 1925 revealed his name as Hajom Schacht, a Budapest Jew." . . . Dr. Alan Nunn May (Jew), first convicted atom spy, has been freed from Wakefield Prison, London, after serving a few years. Compare this news item with the story of Robert Best in the last issue of Common Sense . . . It has been the custom among our so-called leaders to take fast trips to the Korean battle front and return home with the good tidings that our boys' morale is high, they are happy, they have never had it so good, etc. These consoling messages our so-called leaders are bringing back to the States are not consistent with the information received by this writer from several Korea veterans. These boys who fought in Korea say the morale of the boys in Korea and in the Services in the U. S. is lower today than ever . . . The Very Rev. Sylvester Juergens, Superior General of the 3,000 member Society of Mary, upon his arrival here December 6 stated that the Communist Soviet Union will drop the first atom bomb on the Vatican . . . The United Jewish Appeal has just made a call upon all Jews in the United States to provide one hundred and forty-four and one-half million dollars for 1952, most of which will be used against all Americans in putting over their Jewish World Government . . . All Americans should write their Congressmen and Senators and demand an investigation of the Anti-Defamation League of B'nai B'rith, the Non-Sectarian Anti-Nazi League, the American Jewish Congress, and the World Jewish Congress, all of which make up the private spy gestapo in America . . . George Kaufman Jew, who was dropped from the television show "This Is show Business" for making the remark, "Let's make this one program on which no one sings 'Silent Night' was reinstated under a new sponsor. Although the American people registered their protest at the anti-Christian remark the powerful Jewish Invisible government showed contempt for the Christians by reinstating him on the network. On the same program is Clifton Fadiman (Jew), member of eight Communist fronts, and Sam Levenson. At this time we would like to quote from the New York Jewish newspaper "The Day" of December 14, 1935: "WE WANT ALL THIS CHRISTMAS PROPAGANDA STOPPED. THE MASSES OF JEWISH PEOPLE IN AMERICA HAVE A RIGHT TO DEMAND FROM THE EDUCATIONAL SYSTEM IN THE UNITED STATES THAT IT KEEP CHRISTMAS OUT OF THE PUBLIC SCHOOLS" . . .

Two months ago the "Daily Worker" (Communist newspaper) started a drive for funds and set the goal at \$50,000. They already passed the \$50,000 goal and are reaching the \$60,000 mark. It is little wonder why Communism is so successful. Common Sense started a similar drive at the same time and raised only a fraction of the funds needed badly to expose the devil's agents.

## FAREWELL

A PATRIOT'S PARTING WORDS TO THE AMERICAN PEOPLE

By Congressman John T. Wood

Christmas and New Year season. May I take this opportunity of wishing all my patriotic friends in America a very happy commemoration of the birthday of the Prince of Peace?

If this season means little more to you than feasting and revelry, if you have fully subscribed to the modern commercialized idea of Christmas; you have your own reward, without my best wishes further to confuse you in your pagan celebration.

To those who still look upon it as a children's holy day, set apart for the worship of Him who loved little children, let me join in your rejoicing, and whatever we may jointly do in making it a very unique children's holiday.

May we adults take this week to rededicate ourselves to the principle of "Peace on earth, to men of goodwill," originating a new era in the world with the birth of the Christ Child, ushered to us by the shining Star of Bethlehem and the joyous songs of the angelic choir, but without the ministrations of a skilled obstetrician.

Within a very few days my term of office as Congressman from Idaho will have expired, and I shall resume the practice of medicine. I tried to do a good job during my term of office. I have kept the faith within the terms of my Oath of Office: "To support and maintain the Constitution of the United States against all enemies, from within or without this country." Within its term also I tried to be a good Republican.

The great un-Christian delusion of the United Nations is still strongly dominant within so many of the minds of a thoroughly confused and heavily propagandized people throughout the land. Upon the beginning of this New Year, still a Christian New Year, may I be permitted to leave this farewell message with you?

There is no hope for the survival of America as a free government, of the people, by the people, and for the people, unless we speedily do the following things:

1. Return to fully constitutional government.
2. Immediately withdraw from the un-Christian, un-godly Communist World Government within the United Nations.
3. Speedily work out a financial system based upon sound money, instead of the present system of financing debts with more debts.
4. Return to the worship of God according to the faith of the Founding Fathers.
5. Regain control of our means of communication.
6. Get rid of subversive elements and text-books within our free American Public School System.
7. Return to the basic principle that the best interests of America still lie in the inherent Spirit of Freedom, under God, within the minds and souls of the people of America, and not primarily within the federal government, which has unconstitutionally usurped many of the powers it now considers belong to it inherently.
8. The Sixteenth Amendment must be repealed, and some better way must be found to meet the proper and legitimate expenses of the federal government, which will not permit it to confiscate ALL your earnings in unjust thievery from a helpless citizenry.
9. A speedy return to the recognition that each of the States is sovereign in its domestic affairs, subject only to the limitations of invasion of the rights of other States, and to the federal government in its relations with foreign countries.
10. And finally we must return to the knowledge that Freedom is a gift of God; that it cannot be bought or sold; and that we must re-dedicate our lives to it every new day if we are to keep our beloved America free, and transmit its torch, still burning brightly, to our children's children.

May God bless and keep all of you safely. May He make us worthy to keep our America as the Founding Fathers bequeathed it to us—the last stand of free, Constitutional government in the world. So mote it BE! Amen!

After General Lucius Clay had rendered good service to the Jews as the first High Commissioner of Germany, Bernard Baruch rewarded the General by arranging for a desk in Dillon, Read and Co. at the paltry salary of \$20,000 a year. It would have appeared a little bold for a Jew to be in full charge of Germany after its surrender inasmuch as many people knew that the Jews had brought about the war on Germany. There is always a Gentile like Clay ready to front for the Jews knowing he will be well paid.

Below we give you some information on Mr. Dillon's father who is a resident of Far Hills, N. J. Taken from "The Octopus"

Re: Clarence Dillon (Lapowski)

Clarence (Lapowski) Dillon lists himself as a Jew in "Who's Who in American Jewry, 1938-9" and as president of Dillon, Read & Company since 1921; also as one of the Baruch-Frankfurter Jewish group in power during World War I as assistant to Chairman Barney Baruch on the War Industries Board.

To quote "In Fact" (8/12), issued by Jewish George Seldes: "Clarence Dillon was born Clarence Lapowski, son of a storekeeper, Sam Lapowski, in Victoria, Texas . . . Dillon got \$100,000,000 to reorganize Goodyear, outbid Morgan for control of Dodge Bros., wrote the famous \$146,000,000 check, became head of Dillon, Read."

"Biggest loans to German firms: \$70,000,000 Vereinigte Stahlwerke; \$48,000,000 Siemens u. Halske; \$25,000,000 Rheinische Union; \$15,000,000 Gelsenkirchen. . . .

"One of the biggest swindles in Italian history was the theft of \$30,000,000 by Belloni, podesta, or vice-dictator, of Milan . . . the stench was so strong the Duce had to send Belloni to the penal islands. This \$30,000,000 was the proceeds of the Milan 7's floated in America by Dillon, Read & Company." (Quoted in the Arbitrator, 9/40.)

Westbrook Pegler, in his column of November 13, 1952, exposed the meeting of Eisenhower's brothers, Milton and Arthur, with Arthur J. Goldsmith in the Waldorf Hotel, New York. They met in Suite 30C which has been occupied for years by Goldsmith. Goldsmith is the mysterious source of Jewish money which is used to defeat candidates for Congress from such states as Montana, Idaho, Wisconsin, Indiana, and West Virginia. This meeting lasted from November 2nd to November 7th—election time.

Of further interest is Drew Pearson's column of November 14th, 1952 in which he states:

"Joseph M. Dodge, whom Gen. Eisenhower chose as his top financial adviser on budgetary matters, has been helping out Sen. McCarthy's arch enemy, Secretary of State Dean Acheson, since August 22. Three times a week, as consultant, he has been giving Mr. Acheson advice on economic and financial matters affecting Japan. Mr. Dodge even now has an office and a secretary in the new State Department building."

Not only that but Mr. Dodge once attended a Council of Foreign Ministers in London as deputy for the then Secretary of State, George C. Marshall, another of Sen. McCarthy's prime targets.

Furthermore, it seems that Mr. Dodge has also accepted employment from Mr. Truman, specifically in 1947 as U. S. delegate to the Austrian Treaty Commission and even now helps out the Department of the Army as financial consultant.

Those who are informed know that John Foster Dulles, along with Felix Frankfurter, has been the adviser and director of Dean Acheson, who would not turn his back on his pal, Alger Hiss. It was John Foster Dulles, in Seoul, Korea the night the war started, who touched off the bloody affair.

The overall picture gives the impression that Eisenhower is knowingly or unknowingly acting as a front for Baruch whom we have always known was the spokesman for World Jewry, for Churchill who now boasts of being a Zionist and for other One-Worlders.

Mark this down for reference in one year. Taxes under Eisenhower will not be lowered, but raised.

lies and half-truths and innuendoes that Communists plant in the minds of their victims."

The Subcommittee has begun hearings into the educational process, it has made an intensive study, still incomplete, in the entertainment field, and it has examined several other phases of the Communist campaign to capture the minds of the younger generation.

Thus far, the public hearings on education have been confined to testimony regarding conditions in the New York area, particularly with respect to the Teachers' Union, but Senator Ferguson said other hearings are contemplated, following up leads developed from the New York testimony.

"We found evidence," Senator Ferguson said, "that the Union is dominated by Communists, that its program is organized among teachers in every phase from the elementary to the college level, that it has had as many as 1,500 members over the United States and that, through its publication, it has recommended many books and other publications by known Communists or party-followers and many activities sponsored by the Party or by Communist fronts."

"In one case we found a member of the Union acting as advisor to a college chapter of American Youth for Democracy, a Communist created, nation-wide organization for teenagers. Another was faculty advisor for the American Student Union in a New York high school."

"In our preliminary examination into other Communist efforts to capture youth we found the Communists using a great variety of organizations either created by the Party for the specific purpose of attracting youth or infiltrated and adapted to Communist purpose. These ranged from the new abandoned Young Pioneers which sought to overcome Boy Scout influence, through various clubs and organizations in high school and college, to professional organizations like the Association of Interns and Medical Students and the Independent Citizens Committee of the Arts, Sciences and Professions."

"We traced the efforts, often successful, of the Communists to dominate the entertainment field, which obviously offers a broad opportunity for propaganda and for financial gain. The testimony shows how young performers were used to embellish the rallies and meetings of Communist fronts with only the experience and the publicity as their rewards. It showed how a Communist group gained control of the Radio Writers Guild and revealed its efforts, perhaps successful, to penetrate the television field."

"Aside from the schools, radio and television certainly are the most potent influence on youth as a whole, today. They must not be used for propaganda."

#### SUMMARY

Senator Homer Ferguson (R-Mich.) today said the recent political campaign provided convincing evidence that the people of the United States are becoming increasingly alert to the dangers of Communism.

"There is general agreement," he said, "that a major factor in the Democratic party's defeat at the polls last month was the feeling of so many voters that the present administration has failed to sense the seriousness of the Communist threat and take adequate measures against it."

"During the past two years, the Senate Internal Security Subcommittee has torn the mask off pseudo leaders in many walks of life and displayed their Communist backgrounds. It has revealed a spectacle of subversive effort by foreign agents and their dupes that few persons even suspected. It has spotlighted scores of instances where the Communists have eased themselves or their puppets into positions of influence in government, in international agencies, in labor organizations, in the school system, and in the entertainment field."

Senator Ferguson is the ranking Republican member of the subcommittee of which Senator Pat McCarran (D-Nev.) is chairman. Other members are Senators James O. Eastland (D-Miss.), Herbert R. O'Connor (D-Md.), Willis Smith (D-N. C.), William E. Jenner (R-Ind.) and Arthur V. Watkins (R-Utah). All are members of the Judiciary Committee of which the Internal Security Subcommittee is a special unit.

"We have made every effort," Ferguson said, "to do our work thoroughly, sanely and without sensation, in such ways as to justify the confidence of the nation. We have sought facts, not gossip, and have endeavored to support those facts with every bit of evidence available. We have established and preserved a procedure and a hearing atmosphere compatible with the dignity of the Senate, the Judiciary Committee and of the legal profession, of which we are all members."

"That our hearings have sometimes made headlines in the newspapers has been due to the facts we have uncovered, not because of any efforts on our part to court publicity."

Senator Ferguson said the Subcommittee has a considerable file of matters for investigation to point up further the aims and accomplishments and methods of the Communist agents. He expressed confidence the inquiries will be continued and said he hopes the study will remain within the jurisdiction of the Judiciary Committee.

Senator Ferguson said the Subcommittee has a considerable backlog of work already charted.

"During the next two years, we should like to show how the Communist menace can be destroyed, how and why some Communist penetration efforts

By

RENA M. VALE

\$1.00

THE RED COURT is written in the gripping form of a novel and once you start to read it, you will not lay it down until you have finished.

It is fiction based on historical facts of Communist methods and techniques and a thorough understanding of the mysterious powers operating in the background to create revolutionary situations with a view toward overthrowing organized governments throughout the world. It is a book of warning for all Americans and contains a promise for the future of our country if its citizens will take the time to learn, and awaken to the dangers besetting us, not far off in Russia, but right here within our own borders.

This is a hard-hitting book showing a thorough knowledge of the subject. No person who loves America should fail to value in sizing up our national situation read this story. It will be of inestimable and what to do about it before the midnight hour is struck.

The book contains 150 pages and is available in an inexpensive paper covered form for mass distribution at \$1.00

have failed and what success has attended efforts of some organizations to break away from Communist domination.

"There must be some further exploration of Communist infiltration in defense industries and, obviously, additional hearings on school matters, on the international agencies and the means by which the interests of the United States therein may be safeguarded. There should be a further exami-

## WHAT IS COMMUNISM?

Communism has reached its height in the world because of its deceptiveness and the fact that people do not understand it nor do they know who created Communism and who directs it. (Those who have been readers of COMMON SENSE know what Communism is.)

If Christians understood Judaism there would be no Communism. Communism springs from the Talmud which is violently anti-Christian and violates the civil and moral codes of every civilized country. Communism is a false face for Judaism. All so called Communist countries are ruled entirely by Jews, -COMMON SENSE published their names in issue No. 143.

Anti-Semitic is a coined word and used to intimidate those who have learned just who is behind Marxism. The public is afraid to even mention the word Jew with fear of being branded anti-semitic and are therefore led to believe that it is something holy. This word is used on all good patriots who try to stop Communism. They are not only referred to as being anti-semitic but are branded as being Fascists, Nazis and intolerant bigots whereas they are courageous Christians who have the backbone to stand up and defend their country against the international plotters who swarmed into the United States for the past several years. Tom Clark, while head of the Department of Justice, admitted there was an average of 2,000 illegal entries a day. This has gone on for years in addition to a large number of legal entries. It is estimated that at least 95 per cent of these entries are Jews.

There exists today an organized campaign by the Jewish papers to kill the McCarran-Walters Immigration Law which was passed after long deliberation and aimed at slowing down the swarm of revolutionists who have changed our country and have caused fear and bankruptcy.

Most people believe there is a Jewish race which is false. Some Christians defend something they know nothing about. Being a Jew is a condition of the mind. Jews have been behind all revolutionary movements because of their teachings from the Talmud and they spread part of this teaching to uninformed Christians thereby making recruits for Marxism. Lenin said: "for every Communist we have, ten others ready and able to do their work." Jews are a nation within a nation, the Kehilla being their secret Government which they must obey. They also have their own courts (Beth Din). The B'nai B'rith is the Invisible Government in the United States. Their plan is to promote and rule the World Government which will destroy all governments and this they expect to develop from the United Nations.

Are these statements true? Maybe we are just prejudiced, intolerant or don't know what we are talking about. Why doesn't a prominent Rabbi challenge us to stand beside him on a platform and prove this? We will be happy to prove more than this by their own writings exclusively.

Yes, we know all about the "Primer on Communism" published by the Anti-Defamation League of B'nai B'rith which is the backbone of the whole Marxist plan in the United States. We also know about all other efforts to confuse the public and throw off all suspicion, but the people are rapidly learning that Communism is Jewish.

nation of the propaganda field with a view to protecting it against use for subversion.

"The Subcommittee has made an excellent start. It has not been directed or impeded by political motives. It has established a sound operating procedure. It has produced results of immeasurable value. There is every reason to expect it will be as effective an agency of the new Congress as it has been of the present one."
